

HVAC Adopt-A-Student Program

HVAC/R Technology
937-778-1980 x411

What? Help us.....help kids.....by helping them.....help themselves!!!
Why? We all know that, too often our best and brightest students are discouraged from attending the JVS.

The reasons:

- “You’re too smart”
- “You can’t go to college”
- “You can’t play sports”
- “There’s no jobs”
- “etc., etc., etc.”

Teachers, counselors, and principals don’t know what they’re doing...when they try to keep the kind of young man (or woman) they’ll want to work in **their** \$100,000 home, on **their** \$4,000.00 furnace or \$1,000.00 central air unit... from attending the JVS.

This is the same student you want us to have...to teach....to prepare for you to hire.

How? **Adopt-A-Student**...a JVS-HVAC/R Junior or Senior

- Be a partner
- Support his/her decision to sign up for HVAC/R
- Make a phone call
- Stop by (JVS) and say “Hi”
- Be a guest speaker
- Demo a job skill
- Offer (us) a field trip
- Sponsor a Day-on-the-Job
- Allow him/her to “Job Shadow”
- Help judge our skill contest
- Explain the job security, job satisfaction, the earning potential
- Maybe (but not required), you’ll even want to hire him/her

Who? Current Sophomores who are signed-up for our HVAC/R Program next Fall----2007-2008

I will provide name, address, and phone numbers, etc. information.
When? ASAP I want to keep them...so I’ll have good future technicians for you to hire in 2008.

They look like good prospects.
